RE: Groundwater Monitoring Report, 1st Semi-Annual, 5th Year (July 2004), Building 502, Tank 502, Naval Air Station Cecil Field, Jacksonville, Florida

Dear Mr. Ugolini:

I have completed my review of the Groundwater Monitoring Report, 1st Semi-Annual, 5th Year (July 2004), Building 502, Tank 502, Naval Air Station Cecil Field, dated November 10, 2004 (received November 12, 2004), prepared and submitted by Tetra Tech NUS, Inc. The report adequately documents the groundwater contaminant levels in monitoring wells approved in the Natural Attenuation Monitoring Plan Approval Order (NAMP Order) issued by the Department on July 13, 1999 and as modified by subsequent reports. Based upon comments I have made on the previous groundwater monitoring reports, I also concur with Tetra Tech's conclusions and its recommendations for additional assessment to be conducted at this site.

If I can be of any further assistance with this matter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
